Summary

Full Stack Developer with a backend and cloud focus — building production systems with Node.js, TypeScript, PostgreSQL, Redis, and AWS. Hands-on experience with AI integrations (AWS Bedrock, Google Gemini) and end-to-end security architecture. Proven ability to deliver and deploy real-world applications independently. Open to backend, full-stack, or cloud-adjacent roles.

Technical Skills

Languages: TypeScript, JavaScript

Backend: Node.js, Express.js, Prisma ORM, REST APIs, Nodemailer (Brevo SMTP)

Frontend: Next.js, React.js, Redux Toolkit, TanStack Query, Tailwind CSS, Framer Motion, Shadcn UI

Security: JWT, Argon2, Helmet.js, Rate Limiting, CORS, OTP Validation, Token Blacklisting, Google OAuth2

Databases: PostgreSQL, Redis, MongoDB

Cloud & DevOps: AWS (EC2, RDS, S3, Bedrock, Polly, CloudFront), Docker, Docker Compose

AI & LLM: AWS Bedrock, Claude AI, Google Gemini

Payments: Cashfree Payments

Projects

NewsGlance — AI-Powered News Platform ▶ [Watch Demo](#) 🌐 [Live](#) 🔗 [Backend](#) 🔗 [Frontend](#)

Backend: Node.js, TypeScript, PostgreSQL, Prisma, Redis, Docker, AWS (EC2, RDS, S3, Bedrock, Polly, CloudFront)

Security & Integrations: Cashfree Payments, Google OAuth2, OTP Validation, Argon2, Rate Limiting, JWT

Frontend: Next.js 15, TypeScript, Redux Toolkit, TanStack Query, Tailwind CSS, Framer Motion, Shadcn UI

- Designed a **Redis-first caching** layer across all news feeds — Guardian API is called only on cache miss, cutting external API calls by an estimated **80%+** and slashing response latency.
- Deployed REST API on **AWS EC2** behind **CloudFront** (HTTPS), **Dockerised** with Compose; **Prisma ORM** managing a relational **PostgreSQL** schema across 6+ models in production.
- Orchestrated **AWS Bedrock** (primary) + **Google Gemini** (fallback) for AI article summarisation; integrated **AWS Polly** for TTS audio, stored on **S3** and streamed via a custom player.
- Implemented end-to-end security: **Cashfree** payment gateway, OTP-gated auth, **Google OAuth2**, **JWT** sessions, Redis token blacklisting, **Argon2** hashing, Helmet, and rate limiting.

NestFinder — Property Listing Platform 🌐 [Live](#) 🔗 [Backend](#) 🔗 [Frontend](#)

Stack: Node.js, Express.js, MongoDB, Supabase, Next.js, TypeScript, Redux, TanStack Query, Tailwind CSS

- Built production-ready **REST APIs** with OOP-structured **Express + TypeScript**; full middleware pipeline covering auth, validation, and error handling with **JWT** and **Mongoose**.
- Developed a responsive, animated property listing UI — dark mode, **Framer Motion** transitions, property filtering, and real-time data updates with **TanStack Query**.

Experience

Independent Full Stack Developer

Sept 2025 – Present

Building and deploying production-grade applications independently — covering backend architecture, AWS cloud infrastructure, AI integrations, and performance optimization.

- Developed **NewsGlance** — multi-LLM AI news platform with Redis caching (**80%+** API call reduction), Cashfree payments, **Docker** deployment on **AWS EC2**, and CloudFront-served HTTPS API.
- Developed **NestFinder** — full-stack property listing platform with OOP-structured Express APIs, JWT auth, and a fully animated Next.js frontend.

Full Stack Developer Intern

Jun 2025 – Aug 2025

Brihat Infotech

Noida

Built [Karosauda.com](#) — a full-featured GST billing platform using **Next.js**, **Node.js**, **TypeScript**, and **MongoDB**, deployed to production.

Software Developer

Feb 2024 – Dec 2024

Cybergrove Solutions

Siliguri, WB

Built [DW HUB Marketplace](#), [Woodsportal](#), and internal tools using **Next.js**, **TypeScript**, and **Tailwind CSS**. Developed an internal **Node.js** application integrating **HubSpot CMS APIs** and forwarding to downstream services.

ITES Executive (Data Annotation)

Jan 2022 – Dec 2022

iMerit Technology Services

Worked on high-volume AI training data annotation projects; transitioned into software development through intensive self-learning of modern web technologies.

Education

Sreegopal Banerjee College — The University of Burdwan

Hooghly, West Bengal

B.Sc

Sept 2018 – Aug 2021
